1) Can someone tell me how to save money ?

2) What job can I get after my BCA course ?

VI. Read the passage and answer the questions given below :

Honeybees are incredible insects that live together in large groups called colonies. Inside a beehive, every bee has a special job to do. The Queen bee is the leader, and her only task is to lay eggs to grow the family. The Worker bees, which are all female, do the rest of the chores. They clean the hive, guard the entrance against enemies, and fly long distances to find flowers.

CANARA COLLEGE LIBRARY MANGALURU - 3

When a worker bee finds a good patch of flowers, she collects sweet liquid called nectar. She also picks up yellow dust called pollen on her fuzzy legs. When she moves from flower to flower, she drops some of this pollen, which helps new plants and fruits grow. Back at the hive, the bees turn the nectar into honey to eat during the cold winter months. Without honeybees, many of the foods we love, like apples and strawberries, would not be able to grow.

1) What is the main job of the Queen bee ? **1**

2) What do bees turn nectar into so they have food for the winter ? **1**

3) Explain the task of a worker bee. **2**

4) How does a bee's "fuzzy legs" help the environment ? **2**

5) Some people are afraid of bees because they can sting. After reading this passage, do you think bees are helpful or scary ? Explain your answer. **4**
